## INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.	
PCT/II 04/01132	

Box No. I Basis of the report						
1. With regard to the language, this report is based on:						
the international application in the language in which it was filed.						
a translation of the international application into, which is the language of a translation furnished for the purposes of:						
international search (under Rules 12.3 and 23.1(b))						
publication of the international application (under Rule 12.4(a))						
international preliminary examination (under Rules 55.2(a) and/or 55.3(a))						
2. With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):						
the international application as originally filed/furnished						
the description:						
pages 1-14 as originally filed/furnished  pages* NONE received by this Authority on						
pages* NONE received by this Authority on						
the claims:						
pages 15-17 as originally filed/furnished						
pages* NONE as amended (together with any statement) under Article 19 pages* NONE received by this Authority on						
pages* NONE received by this Authority on						
the drawings:						
pages 1-6 as originally filed/furnished						
pages* NONE received by this Authority on						
pages* NONE received by this Authority on						
a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing.						
3. The amendments have resulted in the cancellation of:						
the description, pages_none						
the claims, Nos_none						
the drawings, sheets/figs_none						
the sequence listing (specify):none						
any table(s) related to the sequence listing (specify):none						
4. This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).						
the description, pages						
the claims, Nos						
the drawings, sheets/figs						
the sequence listing (specify):						
any table(s) related to the sequence listing (specify):						
* If item 4 applies, some or all of those sheets may be marked "superseded."						

Form PCT/IPEA/409 (Box No. I) (April 2005)

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/IL04/01132

Statement Novelty (N)			
Novelty (N)			
	Claims	8-9	YES
	Claims	1-7 and 10-17	NO
Inventive Stee (IS)	Claima	9.0	YES
Inventive Step (IS)		8-9 1-7 and 10-17	
Industrial Applicability (IA)		1-17	
	Claims	NONE	NО
erting light so as to pass through a profile in the tropostile; whereby the characteristics (i.e., gap, he bugh the profile (see figures 1 and 3).  Regarding claim 3, see column 2, line 18, Regarding claim 11, see column 2, line 36, Regarding claims 12-13, see abstract for the lims 2, 4-7, 10 and 14-17 lack an inventive step un Regarding claim 2, Tampler et al does not wever, it would have been obvious to one having ince of Tampler et al to determine the gap between the lims.  Regarding claims 4-7,14 and 17, Tampler et al dovices, for example, a group of two lenses, prism device, for example, a group of two lenses, prism	for the use of a gap, height of the property of the property of the property of the property of the time the analysis of the property of t	a laser source.  f a CCD camera.  or thickness between two rollers is determined  cle 33(3) as being obvious over Tampler et al.  in that the gap between a chuck and roll in a se  in the art at the time the invention was made to  coll in a seamer because the device would function  clearly specify what type of the expander; how  invention was made to use any kinds of expan  optical fiber, as now claimed in the present invention Tampler et al a magnification system befor	nat passed through light that passes  amer is determined to use the basic ction in the same vever, it would have der that suitable for vention.
